**> 15 PROJECTS IN ORACLE, DATA
MIGRATION AND BUSINESS
PROCESS OPTIMIZATION**

CASE # 1

XXX, 2020 – PRESENT

Financial Report Efficiency Boost with BI Tools

Challenge:

When I joined XXX as a Senior Data Analyst, I identified inefficiencies in our key financial reports, which not only consumed time but also led to increased operational costs.

Solution:

- **BI Tools Assessment:** Reviewed existing reporting tools and identified the capabilities of MicroStrategy BI and Datalens BI for optimization.
- **Report Overhaul:** Redesigned key financial reports by implementing advanced features from the selected BI tools.
- **Quality Assurance:** Ran multiple tests to ensure data accuracy and to benchmark the new report performance against old metrics.
- **Training and Documentation:** Conducted internal training sessions for team members to understand and utilize the optimized reports effectively.
- **Ongoing Monitoring:** Set up KPIs such as report generation time, user engagement, and error rates to continuously evaluate report performance.

30%

THE REVAMPED REPORTS IMPROVED EFFICIENCY BY 30% AND RESULTED IN ANNUAL OPERATIONAL COST SAVINGS OF \$50K, ALIGNING CLOSELY WITH ORGANIZATIONAL GOALS AND FINANCIAL PRUDENCE.

CASE # 2

XXX, 2020 – PRESENT

Enhanced Budget Monitoring through Dashboard Revamp

Challenge:

Upon reviewing the existing budget monitoring dashboards, I found that the visuals and information presentation lacked precision. This had led to frequent budget overruns, increasing costs.

Solution:

- **Visual Assessment:** Conducted a comprehensive review of the existing dashboard visuals and identified areas for improvement.
- **Design Overhaul:** Reworked the dashboard design to present data more accurately and intuitively.
- **User Testing:** Conducted internal user testing to gather feedback on the new dashboard layout and incorporated necessary adjustments.
- **Training:** Hosted educational sessions to help team members better interpret the new dashboard.
- **Performance Monitoring:** Set up tracking metrics such as budget variance, overrun frequency, and user interaction to measure dashboard performance.

25%

THE NEW DASHBOARD DESIGN RESULTED IN A 25% BOOST IN PRECISION, SAVING \$30K ANNUALLY BY PREVENTING BUDGET OVERRUNS.

CASE # 3

XXX, 2017-2020

Flawless Data Migration in Collaboration with Accenture

Challenge:

I was tasked with overseeing the data migration of Receivables and Assets involving a large volume – 5,000 transactions and 60,000 assets – across 240 stores. The major concern was to prevent any data loss during this critical operation.

Solution:

- **Stakeholder Collaboration:** Partnered with Accenture's global team to plan and execute the migration strategy.
- **Data Mapping and Validation:** Created a detailed map for the existing data and validated its integrity before initiating the migration.
- **Migration Execution:** Performed the actual migration adhering to best practices and stringent data quality norms.
- **Quality Assurance:** Conducted rigorous tests post-migration to confirm zero data loss and full data integrity.
- **Documentation and Training:** Prepared comprehensive documentation detailing the migration process and trained internal teams on the new system.

SUCCESSFULLY COMPLETED THE MIGRATION OF 5,000 TRANSACTIONS AND 60,000 ASSETS ACROSS 240 STORES WITHOUT ANY DATA LOSS, ENSURING SMOOTH BUSINESS OPERATIONS.

Should you find my qualifications aligning with your team's requirements, I would be happy to discuss the opportunity to contribute to the growth of your company
